

Describing yourself myself

Name, age, nationality

Hi everyone, my name is Roldán Vicente, but no one calls me Vicente (maybe because no one knows I have a second name). I am 31 years old. I am from Valencia and I am living in Massamagrell for now.

Work/study/family

Let me introduce you to my life... I am studying 2nd year of a Higher Vocational Education in Cross-Platform Application Development (DAM in Spanish). So, maybe next year I will be an Android Developer (cross fingers). I also work at a Mercadona's warehouse as a picker. It is pretty cold in there because it is literally a fridge (3°C). By the way, I have a dog called "Rayo". He is a mix of Yorkshire breed.

Physical appearance

Talking about my appearance, I have black short hair and blackish eyes (they are brown indeed, but too dark to appreciate it). I have beard (not as bushy as I would like to, but a beard after all). I am 1,8m tall and not too thin or fat.

Personality

Now get a closer look into my mind, I will tell you about my personality. I am quite shy, what makes some people get confused because I am really talkative. I am also positive, friendly and charm. I consider myself funny, which do not makes me funny. I also like to help people. And my friends always say I am such a mess (a messy person) because I always lost sense of time and I am often late.

Hobbies

Talking about my hobbits I have Frodo and Sam... Oh, not hobbits, hobbies.

Well, I like to play video-games (Zelda, Pokémon, Magic The Gathering, Minecraft, Brawl Stars, and so on). I also enjoy reading a good book (El Principito, La Máquina del Tiempo, El nombre del Viento, and many others, always in Spanish). I like to spend time with my friends whenever I can (remember, I am often late).

Qualities of an ideal friend (I would like to meet someone who...)

After saying that, I would like to meet someone who likes to code and develop as much as I do. Someone to compete with. You know, "I do this but I think this would be better", "you can do this", "check out my code", "take a look at this article".
