

Prompts to RemAIke Project

First prompt:

There is a man standing in the middle. He wears a black hat, with rounded borders, medium size. His face is covered with an apple. The apple is green and have four leaves. The man is wearing a white shirt with black long suit and a red tie. Right behind the man there is a wall made of yellowish stone. It is a small wall. Over the wall and behind the man there is a sea with no waves and it is light blue, same color as the sky. It's cloudy but the clouds are quite blurry and you cannot distinguish them.

Second prompt:

Accurate, but please extend the image to let me see his hands.

Note: The AI used was ChatGPT (free trial of GPT plus). And it ignored partially my prompts, so I upload just the first generated image (which is the best one of them).
